Describes the physical characteristics, habitats, and life cycle of crickets and grasshoppers and includes related activities. Advanced readers. | QL506 .P263 1999

Over in the Garden. Ward, Jennifer. Flagstaff, Ariz.: Rising Moon, c2002.

Over in the garden, mother insects and their children enjoy various activities from morning sun to evening moon. Early readers. | QL59 .W213 2002

Paleo Bugs: Survival of the Creepiest. Bradley, Timothy J. San Francisco: Chronicle Books, c2008.

If you think today's insects are creepy, wait until you see what wriggled and slithered through the world hundreds of millions of years ago! Learn how insects survived events that completely wiped out other creatures and see which of their strange adaptations can still be found in insects today. Advanced readers. | QL434 .B73 2008

The Secret Lives of Backyard Bugs: Discover Amazing Butterflies, Moths, Spiders, Dragonflies, and Other Insects. Burriss, Judy. North Adams, MA: Storey Pub., c2011.

Explains the life stages, habits, and interesting facts for over forty species of insects and spiders. Advanced readers. | QL468 .B88 2011

Step Gently Out. Frost, Helen. Somerville, MA: Candlewick Press, c2012.

Close-up photos and lightly-rhymed declarative verse capture a bug's-eye view of nature and encourage children to experience the world outside their doors with care and openness. Early readers.
j QL467 .F929 2012

The Very Hungry Caterpillar. Carle, Eric. New York: Philomel Books, c1987.

Follows the progress of a hungry little caterpillar as he eats his way through a varied and very large quantity of food until, full at last, he forms a cocoon around himself and goes to sleep. Pre-readers.
j QL541.C192 1987 (Also available in Spanish, Chinese, and Vietnamese)
